

## EXAM HALL LOCATOR

### ABSTRACT:

Exam hall location sms alert system utilizing android is software which is useful for students and as well as college authorities. In the present system every one of the exercises are done manually. It is very time consuming and costly. Our Exam hall location sms alert system utilizing android manages the different seat arrangement activities during the exam days. A smart phone based application utilizing Android can be utilized to make this procedure easier, secure and less error prone. So we intend to implement Exam hall location sms alert system project as android based.

The principle target of the "Exam hall location sms alert system utilizing android" is manipulating the hall and seat arrangement during the examination time periods. In this application software, administrator will add the student details for the particular like department, section, academic performance details and exam hall and seat arrangement details for that specific student into the database. Few hours prior to the examination, hall and seat alert arrangement message is automatically send to the students smartphone.
